

President's Message

March 2024

Dear Fellow Residents,

Well here we are in March and have survived what is probably the worst of the winter. We continue to be able to enjoy events in the Clubhouse. This month we have Movie Night on March 2 which will feature *American Underdog*. This is the Kurt Warner story of how he overcame many obstacles in his life to become a 2 time MVP in the NFL, Super Bowl champion and Hall of Fame quarterback.

Our next event will be the St. Patrick's Day pot luck on March 10. We are still working out the details on this one, so please circle the date on your calendars and more information will be out shortly.

As we look towards April, I would like to remind everyone of the Solar Eclipse on April 8. This will be a "partial" eclipse in our area and will be visible to us around 10:03 am. Please remember that you need special eclipse glasses that comply with the ISO 12312-2 international standard to protect your eyes during an eclipse. Eclipse glasses are NOT regular sunglasses; regular sunglasses, no matter how dark, are not safe for viewing the Sun. Eclipse glasses are thousands of times darker than regular sunglasses. Look for glasses that are ISO 12312-2 & CE certified to be safe. Look for more details to come on this.

We are also working on more events for April but nothing has been set as yet. Stay tuned!

1934 Ford Brewster Town Car Cabriolet!

It's not just a car, it's a piece of art.

The Brewster was immortalized in the Cole Porter song, “You’re the Top” and is the only American to ever win the Gold Medal at the Paris International Exposition, a gathering of Europe’s finest coachbuilders.

To save Brewster from the Depression, an employee purchased 135 Ford V8 roadster chassis and designed a body for it, identified by its swoopy fenders and a heart-shaped grille. Stylish and selling for only \$3,500, it was a hit at the 1934 New York Auto Show. The bodies were worth more than the chassis.

Brewster began building carriages in New Haven in 1810. Their artistry was recognized internationally, including a prize won in Paris in 1878. Like many carriage builders, they segued into automobile bodies in 1905. By 1911 they had moved their atelier to Long Island City, New York, perhaps to be closer to the financial center that provided the customers for custom coachwork. Their reputation was such that even Rolls Royce were shipped to America for Brewster bodies. It was no surprise that when Rolls-Royce began production in Springfield, Massachusetts in 1919, Brewster was chosen to build many bespoke bodies on their chassis.

Like other manufacturers of luxury goods, the Depression was not kind to Brewster. The firm faced the challenge by reaching an agreement with Ford. Their management knew Edsel Ford because of the many Lincolns bodies Brewster had built. Furthermore, Ford’s chief of design, Bob Gregorie, had worked at Brewster.

The agreement between Ford and Brewster resulted in Ford chassis being clad in Brewster bodies in styles including Limousines, Town Cars and Convertible Sedans. Celebrity ownership at the time included Al Jolsen, Fred Waring, Vincent Astor and Cole Porter. Porter was impressed enough to add the lyrics, “You’re a Brewster body” to his song, “You’re the Top”.

The subject car is a Limousine built on a Ford 40A chassis with a V-8 85 engine, Ford’s most powerful. It has the heart shaped Art Deco grille that was these cars’ trademark. The color scheme has black fenders and a green body with black accents. The black theme is continued with the interior leather in the chauffeur’s compartment. The passenger space is done in brown with tan carpets. Black spoke wheels complete the visual impression. The chauffeur’s compartment has an ingenious convertible top that folds and fits into a section of the passenger compartment roof above the passenger space. This is a rare opportunity to own a car that touches on so much American automotive history.

Do y'all remember, before the internet, that people thought the cause of stupidity was the lack of access to information? Yeah. It wasn't that.
