

President's Message

June 2026

Hi,

Summer is supposed to be around the corner, but I am beginning to wonder if it will arrive. I think we might have had it in March when we had a few days of over 90 degrees. This has definitely been an interesting year for the weather.

Our June activities include Bingo on June 2nd. We found that Tuesday night Bingo was very successful. So in the months that we are not having bingo with a planned event, we will do bingo on Tuesday night. On June 12th at 6:30 pm, we have State Senator Wahab speaking on SB79, the "Abundant and Affordable Homes Near Transit Act" that goes into effect on July 1, 2026. She will be providing us with a power point presentation on the new law. Senator Wahab has drafted a solution to protect mobile home park residents. I hope many of you will attend to hear what she has to say. The Dragon Boat Festival performed by the Melody Choral Society will be from 2:00 pm to 4:00 pm on June 21st.

We will be doing our 4th of July party with the flag ceremony, BBQ and bingo. As 4th of July is also the first Saturday of the month, we will need to move the Birthday Cake until 1:45 pm as we will be doing the preparation for the 4th in the morning. At that time, we will have Birthday Day cake and ice cream for all attendees.

I would like to thank **Weizhi Sun**, **Pong Yeung** and **Valentina Stahl** for the fantastic job they have done with the Birthday Cake for our residents on the first Saturday of the month. Every month they have ordered the cake, picked it up and served it to our residents. They have made it very special for the residents whose birthday it is. **Valentina Stahl** will deliver birthday cake to the birthday and anniversary residents who are not able to attend the party.

Report MOU Committee Semi-Annual Meeting March 2026

What is the MOU

The MOU project began in Jan. 2021 as part of the 2020 Housing Strategy. Council adopted the MOU in July 2021

The Sunnyvale MOU established a new agreement for how Park Owners must implement various mobile home regulations for the next twenty years. Our MOU will help keep mobile homes as a more affordable housing option in Sunnyvale and serves as an alternative to a rent stabilization ordinance.

The Sunnyvale MOU established a new agreement for how park owners must regulate:

- Annual rent increases maximum percentages
- Rent increases upon sale of the mobile home
- Costs transferred from owner to resident (such as construction of new amenity)
- How to support residents with financial hardships

What is the MOU Compliance Committee Meeting?

Sunnyvale's Mobilehome MOU Compliance Committee (MCC) meets twice per year to allow residents to voice non-urgent concerns or comments about the MOU or their park.

- o When: First Wednesday of March and October, 6pm
- o Where: Online

Each mobile home park in Sunnyvale has a resident representative who can provide general support and answer questions you may have.

Contact: Adobe Wells - Tim Kerr - bt1860@gmail.com Fox Hollow and Willow Ranch do not have a representative. Contact Tim or go online during the meeting when it is opened to the public to speak.

March 2026 Meeting Notes:

The meetings were supposed to end after 5 years, but the owners, city and park representatives voted to continue the meetings.

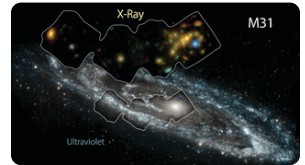

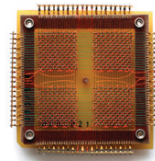

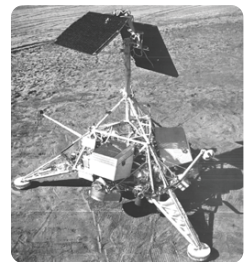

There is a new City of Sunnyvale Property Manager, Janelle Resuello

Property tax pass-through expense at Plaza del Rey was discussed.

Next MOU Committee Semi-Annual Meeting October 7. 2026

Key Historical Scientific Events in June

- June 18, 1962 – Discovery of X-ray Astronomy: Instruments on an Aerobee rocket detected Scorpius X-1, a source of X-rays a million times more powerful than the Sun, opening a new era of astronomy.
- June 18, 1858 – Evolution Theory: Charles Darwin received a paper from Alfred Russel Wallace outlining a nearly identical theory of evolution, which prompted Darwin to present his work.
- June 15, 1949 – Computer Memory: MIT researcher Jay Forrester recorded the first idea for "core memory" for computers.
- June 1966 – First Soft Lunar Landing: Surveyor 1, a U.S. spacecraft, successfully landed on the Moon.
- June 1890 – Industrial Chemistry: Hiram Stevens Maxim received a patent for smokeless gunpowder.
- June 28, 1846 – Invention: The saxophone was patented by Adolphe Sax.

A Note from Daniel Schwartz

While I have retired from managing Treasure Seekers, this does not end my participation in joining my friends and neighbors in collecting, sorting and delivering the "treasures" to the SMaRT Station. Last year, 32% of CCVRA's income came from Treasure Seekers. Peggy Weger, CCVRA President, would like to thank all of CCV residents who participate by donating their bottles and cans to Treasure Seekers. The income goes towards keeping cost down for CCVRA's various events, including: paper goods and goodies for the monthly Birthday Cake, Bingo, Movie Night and parties throughout the year.

If you wish to join the Treasure Seekers crew in collecting, sorting and/or delivering our "treasures", please reach out to Bruce Edmundson 408-307-6810.

For Treasure Seekers pick-up schedule, see page 19.

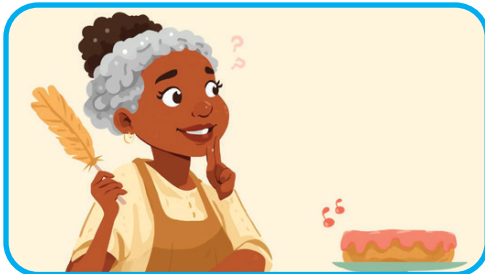

Dust If You Must

by Rose Milligan

Dust if you must, but wouldn't it be better
To paint a picture or write a letter,
Bake a cake or plant a seed,
Ponder the difference between want and need?

Dust if you must, but there's not much time.
With rivers to swim and mountains to climb,
Music to hear and books to read,
Friends to cherish and life to lead.

Dust if you must, but the world's out there,
With the sun in your eyes, the wind in your hair,
A flutter of snow, a shower of rain.
This day will not come around again.

Dust if you must, but bare in mind,
Old age will come and it's not kind.
And when you go (and go you must)
You, yourself, will make more dust.

Al Alcorn - creator of the Pong video game

Allan “Al” Alcorn, a major figure in the world of technology and gaming, is best known as the creator of Pong and as a key pioneer in the early days of the video game industry.

Born on January 1, 1948, in San Francisco, California, Alcorn’s passion for electronics and engineering emerged at a young age, foreshadowing a career defined by a love of learning and creative electronics system design.

Alcorn attended the University of California, Berkeley, where he earned a degree in electrical engineering and computer science. After graduating in 1971, he worked at Ampex, where he met Nolan Bushnell who cofounded Atari and hired Al as one of the first employees in 1972.

Bushnell tasked Alcorn with creating a simple electronic game as a training exercise. This project would become Pong, a two-dimensional sports simulation of table tennis. Alcorn’s design was revolutionary for its time, featuring simple graphics and intuitive gameplay that would soon captivate audiences around the world. Pong quickly became a cultural phenomenon, marking the birth of the video game industry as we know it today. Its success laid the foundation for Atari’s dominance in the early years of gaming and helped popularize video games as a mainstream form of entertainment.

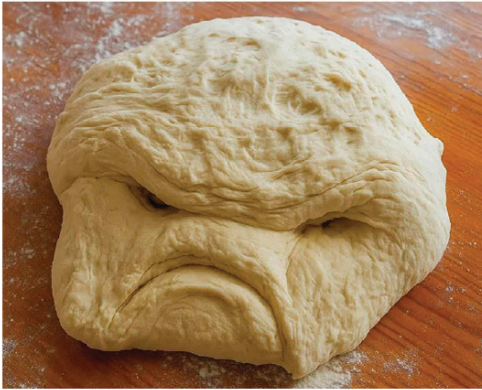

Alcorn’s contributions to Atari extended beyond Pong. He went on to oversee the development of several other iconic games, including Breakout, a brick-breaking arcade game created in collaboration with Steve Wozniak and Steve Jobs, the cofounders of Apple. In addition to his work in game development, Alcorn played a key role in managing product development and shaping Atari’s corporate culture, fostering a collaborative and creative environment that encouraged experimentation and risk-taking and laid the groundwork for the company’s success.

Alcorn left Atari in 1980 to pursue new opportunities, going on to cofound several technology startups, including Zowie Entertainment, a company focused on interactive entertainment, and Silicon Gaming, a company that designed and manufactured a revolutionary slot machine that changed the industry.

Throughout his career, Alcorn has remained a passionate advocate for innovation and technology. He has always inspired game designers and entrepreneurs with his generous advice about engineering and entrepreneurship. In recognition of his contributions to the video game industry, Alcorn has received numerous accolades and awards, including induction into the International Video Game Hall of Fame in 2011.

The Recipe Box

Low-Sodium Mini Frittatas

Costco Connection - May 2026

Instructions

Preheat oven to 350 F. Spray a muffin tin generously with cooking spray.

Heat bacon fat in a large sauté pan over medium-high heat. Add onions and garlic, and cook until fragrant, about 1 minute. Add zucchini and season with black pepper and half of the salt-free seasoning. Cook until zucchini is browned on both sides, about 5 to 7 minutes.

Whisk eggs, yogurt and the rest of the salt-free seasoning in a large bowl. Stir in 1 cup cheese. Divide the zucchini evenly among the muffin tin cups. Use a ladle to pour the egg mixture over the zucchini. Top the frittatas with the remaining ½ cup cheese. Bake for 20 to 25 minutes, or until the frittatas are set.

Makes 6 servings.

Ingredients

- 1 Tbsp bacon fat or olive oil
- 1/2 medium onion, chopped
- 4 garlic cloves, minced
- 3 small zucchini (about 1 lb), sliced
- Black pepper, to taste
- 1 Tbsp salt-free seasoning or blend of dried thyme leaves, oregano and basil, divided
- 8 large eggs
- 1/2 cup plain Greek yogurt
- 1-1/2 cups shredded Swiss and Gruyere cheese, divided
